

## Georgia CIT Program

**TERMINAL PERFORMANCE OBJECTIVE (TPO):** The student will be able to recognize potential indicators of commonly encountered childhood brain disorders when presented with a child or adolescent subject

**ENABLING OBJECTIVES (EO):** The students will be able to:

1. Recognize the signs and symptoms of commonly encountered childhood disorders.
2. Understand the ways in which young people suffering from brain disorders are different from similarly suffering adults.
3. Describe assessment and treatment strategies for children and adolescents.
4. Identify the types of services available for children and adolescents.
